HEREFORD CATTLE AT STATE FAIR

C. O. Graves, well-known Hereford breeder from this vicinity, took his show-herd to the Kentucky State Fair in Louisville last week and carried away a fine collection of blue ribbons.

Mr. Graves showed the Senior and Grand Champion Female of the Show, and in addition took three first and a third prize. First prizes were won by the Graves herd in the three-year-old cow, two-year-old cow and aged herd classes.

At the Kentucky Fair, nine exhibitors from several States showed Herefords of high quality.

Herefords are becoming more and more popular throughout Kentucky. Because of their hardihood, their resulting ability and their early maturing characteristics, Herefords make an ideal beef animal. They are in constant demand for finishing in the Corn Belt.

Hereford feeder cattle ordinarily outsell any breed on the Chicago and Kansas City markets. They are profitable alike for the man who produces them and for the man who feeds them.

The 1920 census records 4,375 registered Herefords in Kentucky.

GREAT IMPROVEMENT IN COUNTRY NEWSPAPERS

In no other field have greater strides been made in the last twenty years than in the rural newspapers of Kentucky, and as a result the country press of the State now ranks in dignity and importance with that anywhere.

Time was—and not so far back, either, when running a rural newspaper was an undertaking with returns nowise commensurate with the time and effort expended in its production. Many of the papers were one-man affairs and the editor, who did everything from getting the news to setting type to running off the sheet on a handpress, was content to eke out a bare existence. In those days he had not asserted his independence.

Then the editor was willing to take butter, eggs and country produce in exchange for subscriptions and glad of the chance to realize anything on a "chips for whetstone" basis.

A transformation has come and now it is different with the rural editor. Instead of doing everything he usually employs a young woman stenographer and a business manager and his plant is equipped with a typesetting machine and other modern labor-saving devices. He no longer is subservient to the political bosses, long since having told them where to "get off." He runs his paper on business principles and exerts a real power in the community influenced by his circulation.

What is better, the average rural newspaper in Kentucky is making money and generally forward-looking is doing a real service for the uplift and advancement of the State. Using the mixed metaphor of one of the Kentucky editors, "The country press is the bulwark of the State; long may it wave."

CORROBORATION

Of Interest to Paris Readers

For months Paris citizens have seen in these columns enthusiastic praise of Doan's Kidney Pills by Paris residents. Would these prominent people recommend a remedy that had not proven reliable? Would they confirm their statements after years had elapsed if personal experience had not shown the remedy to be worthy of endorsement? The following statement should carry conviction to the mind of every Paris reader.

Mrs. John Mastin, 1439 High street, Paris, says: "I have used Doan's Kidney Pills with good results. I had a dull aching across the small of my back and my kidneys acted irregularly. The use of Doan's Kidney Pills rid me of these complaints and I have faith enough in them that should I ever need a kidney remedy again I would certainly use Doan's Kidney Pills."

Mrs. Mastin gave the above statement November 9, 1916, and on November 13, 1920, she added: "I still have the same good opinion of Doan's Kidney Pills as when I endorsed them before. I use them occasionally when I require a kidney tonic and they never fail to do me good."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mastin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mixed Characteristics.

At a political gathering in England an orator waxing indignant said, "To ridicule the idea of this country being invaded is to follow the example of the camel, which buries its head in the sand when an enemy approaches." The rival speaker rose and retorted, "Surely the gentleman in giving utterance to this apothegm, must have meant to refer to the ostrich which, in those circumstances, has a habit of putting its eye through a needle."—Boston Transcript.

WEEKLY PRODUCE MARKET AND EGGS REVIEW

Rain through most of the producing sections has improved pasturage, and gives promise of some increase in the deliveries of cream. Prices show little change from last week. Dairy authorities suggest that at this time of the year, when the grass is short, it is a good plan to give the cows a little extra feed, both morning and evening, in order to keep up the milk flow.

The supply of fresh eggs is smaller, and good prices are being paid. There is an over-supply of held stock and prices are not quite as firm as last week. There is a large surplus of eggs in cold storage.

Poultry receipts have been about normal for the season. The approaching Jewish holidays have increased the demand, with some advance noted for live poultry and a more satisfactory situation for dressed stock. Any large increase in the movement would probably be followed by some reaction in prices.

The idea that sweat spoils beauty is one of the Devil's tricks for keeping folks homely.

Lots of public spirited citizens are investing in oil this summer, thereby helping to keep the dust down.

USERS OF ADDING MACHINES

For your convenience we are now carrying a stock of the best adding machine rolls and can supply you with one or a dozen at a time. This is a fine linen bond paper and absolutely lintless.

WHEN THE FROSTY DAYS COME

When the frosty days come will you be prepared with the best heaters for your home that money will buy?

Our lines include the very best known heaters, either for gas or coal, all nationally recognized as the foremost brands in America. The Packer's Duo-Radiant Gas Heater, the Radiant Home Gas Heater and the New Process Gas Heater are heaters that are indeed the best in their class. The Sunray Gas Heater as a reflector does not have a superior of its kind. Then the famous Radiant Home Coal Heater to heat the whole house or the Cole's Hot Blast for three or four rooms will certainly please you. Our Stove Department is the largest department of its kind in the State. We devote one whole floor of our large building entirely to stoves all the year round.

Duo-Radiant Gas Heaters

The Packer's Duo-Radiant has a fire clay back that radiates the heat to the floor with a pure-blue flame that is the most severe heat production known in gas heater construction. A small size will heat a very large room with the minimum of gas consumption. They cost a little more but they are worth it.

Radiant Home Gas Heaters

The Radiant Home gas heater is of a fire clay construction in the back and very much like the Packer's Duo-Radiant except the patterns are not so elaborate and therefore are very much less expensive. The Radiant Home does not cost any more than the ordinary gas heater, yet it is very much more.

Packer's Duo-Radiant Gas Heaters

The Packer's Duo-Radiant gas heater will burn on a lower gas pressure than any other gas heater manufactured, because the burner is designed with a valve adjustment and is made so it may be adjusted to use the last bit of gas that is in the pipes, should the gas pressure get weak at any time during the cold winter. Let us show you how this is done.

Packer's Duo-Radiant Styles

Packer's Duo-Radiant gas heaters are offered in many styles. You will find the handsome gas heater here for your front hall made of porcelain that does not craze or crack, or the wonderful looking gas heater for your living room with andirons attached that looks better than a gas log and gives five times as much heat. Let us show you.

The Radiant Home soft coal heater is patterned in four different sizes to heat from three or four rooms up to eight or ten rooms. It is designed so that it is a real double, the same as a furnace. Make selections early so that we can get it installed before the rush comes for Radiant Homes.

Cole's Hot-Blast Coal Heaters

Cole's Hot Blast Heater is well known to the public of this section as they have been sold here for many years and recognized everywhere as one of the very best hot blast heaters manufactured. We offer you a Cole with every guarantee that faith in any piece of merchandise may be offered—buy it, use it and if it's satisfactory keep it and if not satisfactory return it and we will refund the money with a smile. We know it's right or we could not offer it with such a guarantee. It costs no more than the ordinary coal heater.

New Process Gas Heaters

The Packer's Duo-Radiant Gas Heaters are made in styles that fit closely on the hearth or in the grate and are designed to look like a grate fire. You will find a number here that have the andirons attached and they certainly make a pretty heater. The burners are so constructed that they make a powerful heat.

Dr. Waddell's Pile Remedy

Don't Suffer—Don't be Operated until you have tried Dr. Waddell's Pile Remedy. Absolutely harmless. Guaranteed to give absolute satisfaction or money refunded. \$1.50 per bottle at your druggist—If not write us.

Just History

In '76
The Colonial Dame
Spun her cloth
By Candle flame.

In 1860
In Crinoline bright,
She greeted her guests
By Coal Oil light.

And later on,
How time does pass
Her home was lit
By flickering Gas.

But the girl of to-day
Who wants her home bright,
Just presses a button
And has Electric light.
